EDUCATIONAL ACTIVITIES TO STAY CONNECTED TO LEARNING

Dear CPS Community,

With the unexpected closing of school, CPS would like to provide you with resources and activities, in order to keep your children connected to learning. Our content area department coordinators have created activities for each level and discipline to keep your children engaged in learning while out of school. These resources are not meant to be a replacement for instruction, nor are they requirements for students. Rather, they are a combination of digital resources we have available already as a district and other enrichment activities for parents and students to access to keep learning as fluid as possible during this closure. Many of the digital resources available are used daily and should be familiar to students. These resources and other academic options can be access through the students' [CLEVER](#) portal. We will continue to provide updates as changes occur.

CPS is committed to helping families through this time. If you need further information, please reach out to me at: hirschl@chelmsford.k12.ma.us

Respectfully,

Linda Hirsch, Ed.D
Assistant Superintendent

Elementary K-4 Curriculum Resources

Please use the following link to access Elementary K-4 activities for all content areas.

FAMILY RESOURCES FROM THE COORDINATOR OF SEL AND SCHOOL COUNSELING

As adults, we are managing the fast-paced changes and updates on the Coronavirus. Because of this, we may feel an increased level of anxiety. It's important to be mindful that our children may experience the same. Our children might be asking questions and be worrying. It's important to listen to their concerns, remain calm and keep routines and structure in place as best as possible. Please see the following resources available to parents to access during the school closure.
