

FY2026 Budget

SCHOOL COMMITTEE MEMEBERS

Dennis F. King II, Chair Maria L. Santos, Vice Chair Diana M. Lebeaux, Secretary Susan Mackinnon John W. Moses

CENTRAL ADMINISTRATION

Dr. Jay Lang, Superintendent Dr. Linda Hirsch, Assistant Superintendent Joanna Johnson-Collins, Director of Business and Finance

> School Committee Approved February 25, 2025

Chelmsford Public Schools General Fund Operating Budget Overview

The Massachusetts Department of Elementary and Secondary Education (DESE) tracks budgeted and actual spending in districts from year to year. DESE's most recently published actual figures are for FY2023, which ended June 30, 2023. From the reported and audited actual figures for each district, DESE determines each district's compliance with its net school spending obligation in dollars and in percentage of required spending. DESE annually publishes required net school spending and actual net school spending for each district in Massachusetts. In FY2023, 13 districts spent less than their required net school spending as computed by DESE; 305 districts exceeded their required net school spending. Chelmsford exceeded its required net school spending by 33.6% in FY2023, which is slightly above the state median value of 31.4%. Across the state, 164 communities spent less than Chelmsford, whereas 153 communities spent more than Chelmsford as a percentage of total spending in excess of required net school spending, as illustrated in the graph below.

What Is Net School Spending?

The Massachusetts school finance statute, Chapter 70 of the General Laws, establishes an annual net school spending requirement for each school district. Net school spending includes each town school department's general fund expenditures (operating budget) as well as the

town's direct spending for schools, but it excludes capital expenditures, transportation, grants, and revolving funds. Required net school spending is the annual *minimum* that must be spent on schools, including carryover from previous years. As stated previously, Chelmsford exceeded its required net school spending requirement by 33.6% in FY2023 and in FY2024 is budgeted to exceed its required net school spending requirement by 31.8%.

To determine net school spending for the upcoming school year, the state uses school department enrollment data as of October 1 of the current school year (i.e., the October 1, 2024 student headcount is the basis for determining the FY2026 foundation budget and net school spending requirement). This is called foundation enrollment and is used to calculate the district's foundation budget. The foundation budget is the state's estimate of the *minimum* funding level needed in each district to provide an adequate educational program.

Massachusetts uses a complex formula that considers many factors, including each district's grade-level configuration, programs, and demographics. The formula also considers each community's relative wealth and determines each community's "required local contribution" toward the educational program.

Comparable Community Analysis: Demographic Data

Although it is important to compare Chelmsford to the state average with regard to spending and academic performance, it is also necessary to assess Chelmsford's spending and academic performance with its most comparable peer communities across the state. Table I provides general demographic data for Chelmsford and its ten most comparable districts as determined by DESE.

Table I. DESE Comparable Districts: General Demographic Data

District	Total Enrollment	Econ. Dis. (%)	SWD (%)	ELL (%)
Andover	5,448	12.2	19.1	3.6
Ashland	2,903	21.8	20.3	6.9
Chelmsford	5,130	18.4	19.9	6
Easton	3,401	20.8	19.7	3.2
Franklin	4,680	15.8	20.5	2.4
Marshfield	3,672	18.8	20.2	2.8
Natick	5,303	14.1	18.4	4.7
Newton	11,752	13.4	18.6	7.2
North Andover	4,463	22.1	19.8	4
Tewksbury	3,205	22	20.8	4.6
Wakefield	3,365	17.2	19.6	3.2

With regard to the number of economically disadvantaged students enrolled, Chelmsford falls in the middle of its most comparable districts. Five districts have a higher percentage of students and five districts have a lower percentage of students designated economically disadvantaged. Some 18.4% of all Chelmsford Public School students are identified as economically disadvantaged. This is a significant increase from just ten years ago (2014-15) when 8.2% of all Chelmsford Public School students were identified as economically disadvantaged.

With respect to the number of students identified with disabilities (SWD), Chelmsford falls in the middle third of its most comparable districts. Of all Chelmsford Public School students, 19.9% have disabilities and require special education services, as outlined in their Individual Education Plan (IEP). Six districts have a lower percentage of students and four districts have a higher percentage of students identified with disabilities.

The percentage of students classified as English language learners (ELL) in the Chelmsford Public Schools is higher than eight, and less than two of its ten most comparable communities. In Chelmsford, 6% of all students are classified as ELL.

Comparable Community Analysis: Financial Support

Within the last few years, DESE has tried to make district and school demographic and performance data more accessible to district staff and the general public. The District Analysis and Review Tools (DARTs) provided by DESE allow users to track and analyze data over time to make comparisons to state and comparable districts. The DARTs select the ten most comparable school districts in the state based on student enrollment characteristics, special populations, and grade-span groupings (i.e., K–12, elementary, secondary). Grade-span groupings are an important point of comparison because districts are often compared with their neighbors based solely on geography. However, a district's comparison to similar districts across the state is often more valuable when balancing programs and services against level of spending and student achievement.

Table II highlights actual net school spending in FY2023 as a percentage of required net school spending for the ten most comparable districts to Chelmsford, as determined by DESE.

Table II. DESE Comparable Districts: Actual Percentage of Required Net School Spending

District	FY2023 Actual % of Required NSS
Newton	81.2 %
Andover	63.9 %
Natick	56.5 %
Wakefield	49.8 %
Tewksbury	39.8 %
Chelmsford	33.6 %
State	26.2 %
North Andover	26.1 %
Ashland	25.9 %
Easton	20.9 %
Franklin	16.1 %
Marshfield	13.7 %

Table II shows that five comparable districts (North Andover, Ashland, Easton, Franklin, and Marshfield) spent less than Chelmsford in FY2023 as a percentage in excess of the district's required net school spending. Five comparable districts (Newton, Andover, Natick, Wakefield, and Tewksbury) spent more than Chelmsford in FY2023 as a percentage in excess of the district's required net school spending. In addition to the ten comparable districts as determined by DESE, the FY2023 state median is listed at 26.2% as a percentage in excess of required net school spending.

DARTs also analyze other aspects of comparable districts, including staff-to-student ratios. DESE reports the most recent staff-to-student data for FY2024, which ended June 30, 2024. Table III presents the overall student-teacher ratio in Chelmsford, its ten most comparable districts as determined by DESE, and the state average.

Table III. DESE Comparable Districts: FY2024 Student-Teacher Ratio

District	Student : Teacher Ratio
Newton	11.1 : 1
Marshfield	11.3 : 1
Andover	11.6 : 1
Natick	11.6 : 1
Wakefield	11.7 : 1
State	11.8 : 1
Franklin	12.1 : 1
Tewksbury	12.6 : 1
Easton	12.8 : 1
Ashland	13.1 : 1
North Andover	13.3 : 1
Chelmsford	13.4 : 1

Table III shows that among its most comparable districts in the state, Chelmsford's student-teacher ratio is higher than all ten of its most comparable districts and the average student-teacher ratio among all Massachusetts school districts is also lower than Chelmsford's.

The student-teacher ratio is helpful for gauging a district's overall standing with regard to its comparable communities, but it does not give a true picture of the district's student-teacher ratio. This calculation takes all students reported on the October 1 headcount and divides them by the number of teachers in the district. The ratio does not consider special programs with lower-than-average class size (i.e., self-contained special education programs). At the regular meeting of the Chelmsford School Committee on December 3, 2024, grade-by-grade breakdowns of student enrollment at each elementary and middle school in the district were reported. These figures are more useful for budgeting purposes because they depict actual homeroom class size. The October 1, 2024 student enrollment report is included as Appendix A.

Another measure commonly referred to when reviewing spending among school districts is average teacher salaries. Table IV lists the data for each comparable district and the state. This data shows that Chelmsford's average teacher salary is higher than one of its peer communities (Marshfield) and lower than eight peer communities (Newton, Andover, Wakefield, Natick, North Andover, Ashland, Franklin, and Tewksbury). The average teacher salary for all school districts in the state is higher than Chelmsford's average.

Table IV. DESE Comparable Districts: FY2023 Average Teacher Salary

District	Average Teacher Salary
Newton	\$ 99,291
Andover	\$ 96,437
Wakefield	\$ 94,115
Natick	\$ 93,965
North Andover	\$ 90,520
Ashland	\$ 90,195
State	\$ 89,576
Franklin	\$ 88,078
Tewksbury	\$ 86,638
Chelmsford	\$ 86,504
Marshfield	\$ 83,686
Easton	Not Reported

Another measure often used to compare districts is the amount of money spent to educate each student in the district, often referred to as the per-pupil expenditure. This cumulative figure includes all district expenditures on administration; instructional leadership; teachers; teaching services; professional development; instructional materials and equipment (including technology); guidance, counseling, and testing services; pupil services; operations and maintenance; and employee benefits. Table V presents the FY2023 in-district per-pupil expenditure for each of Chelmsford's comparable districts.

Table V. DESE Comparable Districts: FY2023 Per-Pupil Expenditures

District	Per-Pupil Expenditure
Newton	\$ 24,393
Andover	\$ 21,708
State	\$ 20,767
Wakefield	\$ 20,058
Tewksbury	\$ 19,812
Natick	\$ 19,294
Franklin	\$ 17,801
Marshfield	\$ 17,753
North Andover	\$ 17,252
Chelmsford	\$ 16,909
Ashland	\$ 16,240
Easton	Not Reported

DESE provides the per-pupil expenditures for in-district students. As Table V shows, eight of our comparable districts (Newton, Andover, Wakefield, Tewksbury, Natick, Franklin, Marshfield, and North Andover) spent more overall per pupil than Chelmsford, and one comparable district (Ashland) spent less. The median per-pupil expenditure for all districts in the state is \$3,858 higher than Chelmsford.

Conclusion

The Chelmsford Public School District provides an exceptional education to the students entrusted to our care. The district effectively uses the resources appropriated annually by Town Meeting to serve the needs of an ever-diversifying student population. Although Chelmsford exceeds minimum net school spending on public education, and spends slightly more than the state average of district spending above net school spending, Chelmsford spends \$ 3,858 less per-pupil than the state median per-pupil expenditure statewide. In Chelmsford, average teacher salaries are lower and student-teacher ratios are higher among comparable districts and the state average. Per-pupil spending is lower than the state average and in the bottom third of comparable districts per-pupil spending.

Additional funding would enhance the educational experience of Chelmsford students, but the programs and services currently provided yield exceptional results, as demonstrated by standardized testing measures. Overall, our students' academic achievement makes it clear that the town of Chelmsford is receiving a positive return on its investment in public education. Chelmsford's students are also involved in athletics, community service, and fine and performing arts, thereby fulfilling the roles of productive and valued members of the community.

FY2026 Budget Overview

At the tri-board meeting on December 9, 2024, Town Manager Cohen expressed concern with FY2026 department budget requests outpacing anticipated state aid increases and revenue that may be generated through local property tax increases, constrained by Proposition 2 ½. The resulting overall FY2026 Town of Chelmsford budget of \$ 168.4 million proposed by Town Manager Cohen reduces services and is hampered by extraordinary increases in employee health insurance premiums and the Middlesex County retirement assessment. These inflationary pressures are expected to continue through FY2027.

Several budget assumptions underlie the FY2026 school department's local operating budget. The town manager has included a \$ 1.77 million increase in funding for the Chelmsford Public Schools, an increase from \$ 73.88 million to \$ 75.65 million in the FY2026 Town of Chelmsford general operating budget. Following is a list of the assumptions that have been incorporated in the FY2026 school committee approved budget.

All FY2026 salaries have been increased in accordance with the applicable collective bargaining and individual employment agreements. "Step" increases and "lane changes" have been incorporated in the FY2026 approved budget figures. Anticipated teacher vacancies from announced retirements have been budgeted at \$ 71,000 (Step 3 on the master's degree salary schedule).

The FY2026 school committee approved budget includes reductions to and reallocations of personnel to maintain and augment previous investments to support students and families in a few significant ways targeted in high-need focus areas:

- The FY2026 budget provides an additional special education teacher for the fourth and final phase of implementation of the in-district Language Based Program at the middle school level (8th grade) an inclusive, targeted and supportive learning environment for students who require specific and intensive remediation due to language-based reading disabilities. The goal of the language-based program is to continue to develop literacy skills and strategies while supporting access to grade level curricula for students who require a multi-sensory approach to support their reading, writing, listening, speaking and organizational skills. This position is funded by reducing a reading teacher position through attrition (retirement) at McCarthy Middle School.
- The FY2026 budget provides an additional supervisor of students position at McCarthy Middle School to provide additional student supervision and enable a greater support network for all students, staff, and families. This position is funded by reducing a copy clerk position and lunch and recess aide position at McCarthy Middle School. Principal Parks has provided a memorandum in support of this recommendation.
- In previous recent and the current fiscal year, the "tutoring" line item contains funding to provide part-time instructional staff positions to augment grant funding in support of the elementary and middle school interventionist staffing/model. A significant reduction from eighteen (18) to six (6) tutor positions is incorporated in the FY2026 budget due to funding constraints.

 The Director of School Nutrition position has been allocated to the School Nutrition Revolving Fund from the local operating budget in the FY2026 budget due to funding constraints.

The FY2026 budget maintains the day-to-day substitute teacher rate, day-to-day substitute paraprofessional/recess aide rate, long-term substitute teacher rate, and day-to-day substitute nurse rate to be competitive with surrounding communities and attract the best possible candidates to the Chelmsford Public Schools to fill these important positions on a daily basis.

■ The FY2026 budget maintains funding for the implementation of the 1:1 computer initiative for all incoming 5th grade students at Parker Middle School and 9th grade students at Chelmsford High School. Each student will be provided with a district-issued computer (Chromebook) for use at home and in school. This initiative is funded through School Choice revenue and does not impact the local operating budget.

The FY2026 school committee approved budget continues to include Circuit Breaker, School Choice, Athletic Revolving Fund, Transportation Revolving Fund, and the CHIPs Revolving Fund as revenue offsets in support of the Chelmsford Public Schools. The FY2026 school committee approved budget also uses anticipated tuition credit from Valley Collaborative as a revenue offset.

The school committee approved FY2026 budget was crafted in support of the district's academic and social emotional goals and initiatives that have been and will continue to be the focus of our collective work in the years to come.

On January 30, 2025, Town Manager Cohen released his recommended FY2026 budget for the Town of Chelmsford. Included in his recommended budget is a \$ 1.77 million increase, \$ 73.88 million to \$ 75.65 million, to support the Chelmsford Public Schools. I will be working closely with the schools on enrollment projections, especially the middle schools and high school, as they complete their course registration and selection process for 2025/26. I look forward to working with the school committee to review and present to town meeting a FY2026 local operating budget for the Chelmsford Public Schools that not only maintains the integrity of the programs and services we offer, but continues to align our available resources to meet the identified district goals and objectives for the 2025/26 school year.

Yours truly,

Jay Lang Ed.D.

Superintendent of Schools

Notes:

The "copiers" line item remains level funded in FY26 to fund the CHS RICOH Center services and the per click maintenance costs that occur after the warranty period (three years) on a copier expires. Replacement of aging copiers will be funded through one time purchase available funds.

The "vital records preservations" line item records actual expenses for digitizing paper records in accordance with MA records retention guidelines.

Notes:

February 25, 2025

The "contracted services" line item contains funding to provide for the costs associated with providing staff employment accommodations necessitated by medical documentation. The account has been reduced in FY26 to better align with prior year actual expenditures. The line item also funds on-line mandated training modules employees complete annually.

Notes:

The "salary reserve for COLA" amount is set aside for contract negotiations with employee unions.

The overall teacher FTE amount reflects a decrease of 0.2 FTEs due to a middle school art teacher being hired as a 0.4 FTE rather than a 0.6 FTE to meet the scheduling needs at the middle school. Two other reclassifications occurred within CHS (after two teachers retired) shifting from math teacher and science teacher to the technology (engineering) teacher category.

	FY2023 ACTUAL	FY2024 ACTUAL	FY25 FPE	FY2025 BUDGET	FY26 FPE	FY2026 BUDGET

Notes:

In FY20, FY21, FY22, FY23 and FY24, the "civic activities and community services" line item funded the bond principal and interest payments for the two turf fields (Chelmsford High School and McCarthy Middle School). These annual payments are typically funded by the Turf Field Revolving Fund (518), however in FY20 and FY21 the spring rentals of the turf fields were not possible/limited due to COVID 19 pandemic restrictions. The bond principal was paid in full in April of 2024.

Notes:

The District anticipates receiving a credit from Valley Collaborative in FY2026, as Valley is projecting revenue in excess of the amount they are able to retain at fiscal yearend. The amount above the allowed retainable limit must either be returned or credited to Valley's partner districts in proportion to the amount paid over the fiscal year. Chelmsford anticipates a credit of approximately \$ 300,000 in FY2026. I recommend the amount be used to offset the FY2026 local operating budget as it directly relates to special education tuition.

Student Enrollment Summary

CHELMSFORD PUBLIC SCHOOLS

Jay Lang, Ed.D., Superintendent

Memorandum

To: Members of the School Committee

From: Jay Lang, Ed.D., Superintendent of Schools

Date: November 25, 2024

Re: Final October 1, 2024 Student Enrollment & NESDEC Enrollment Projection

We supplied the Massachusetts Department of Elementary and Secondary Education (DESE) with our October 1, 2024 student enrollment data which has been certified by DESE. The in-district enrollment information, coupled with our out-of-district special education enrollment, forms the basis for our FY26 Chapter 70 state aid calculation. Attached please find our final enrollment figures certified by DESE for students enrolled and participating in-district as of October 1, 2024. I have also attached an updated enrollment projection performed by NESDEC. We update our student enrollment projections annually to assist with budget and facility planning.

In addition to the state SIMS Reports and NESDEC enrollment projection that I provide annually, I have provided summary documents from X2, our student database, on actual homeroom enrollment at the elementary, middle and high school levels. As elementary students do not switch classes, these are the class sizes at Byam, Center, Harrington and South Row Elementary Schools. As middle and high school students switch classes and follow a more course-based (rather than homeroom-based) schedule, I have provided the actual course section enrollments detailing the actual number of students enrolled in each course section at McCarthy, Parker and Chelmsford High School. I hope you find this information helpful as we look at student enrollment and class size in the district.

Enrollment Summary

NESDEC is pleased to send you this report displaying the past, present, and projected enrollments for your District. It is important to update enrollment projections every year to identify changes in enrollment patterns. Ten-year projections are designed to provide your District with yearly, up-to-date enrollment information that can be used by boards and administrators for effective planning and allocation of resources. We received the enrollment data from the District, and we assume that the method of collecting this data has been consistent from year to year.

Birth data informs Kindergarten enrollment. Each fall, NESDEC secures birth data from State sources, providing a snapshot in time as to actual and provisional births as reported by the State, and then uses this birth data to predict Kindergarten enrollments. We only use Fall birth data to assure consistency in reporting from year to year. Estimated births, which are an average of the previous five years of birth data, are based on this same snapshot. NESDEC acknowledges the variability of the provisional and the estimated birth data, and notes that the projected Kindergarten enrollments may serve as a guide to future planning.

Enrollment projections are more reliable in Years #1-3 in the future. Projections four to ten years out may serve as a guide to future enrollments and are useful for planning purposes. In light of this, NESDEC has added a "Spring Update Refresher" enrollment projection at no cost to affiliates. For more information, please refer to the Projection Methodology and Reliability section of this document.

The NESDEC enrollment projection fell within 76 students of the K-12 total, 4,986 students projected vs. 4,910 enrolled. One variance of 54 students occurred at Grades K-4, 1976 projected vs. 1,922 enrolled. Ratios have been adjusted.

Births increased by 18 from a previous ten-year average of 331 to a projected average of 349. In most districts, Grades 1-8 are very stable in enrollments. However, there have been increases in 6 of the most recent years, leading to a net increase averaging 28 students per year.

Over the next three years, Grades K-4 enrollments are projected to increase by 102 students, Grades 5-6 enrollments are projected to decrease by 7 students, Grades 7-8 enrollments are projected to increase by 16 students, and Grades 9-12 enrollments are projected to increase by 25 students, as students move through the grades.

Enrollment in public elementary and secondary schools, by region, state, and jurisdiction: Selected years, fall 1990 through fall 2031, Table 203.20,

Report Generated Dec. 2023, NESDEC 2.8.24

Although most New England Districts are seeing a decline in the number of births, NESDEC's experience indicates that the impact on enrollment varies from District to District. Almost half of New England Districts have been growing in PK-12 enrollment, and a similar number are declining (often in rural areas), with the other Districts remaining stable.

Projection Methodology and Reliability

PROJECTION METHODOLOGY

Cohort component (survival) technique is a frequently used method of preparing enrollment forecasts. NESDEC uses this method, but modifies it in order to move away from forecasts that are wholly computer- or formula-driven. Such modification permits the incorporation of important, current district-specific demographic information into the generation of enrollment forecasts (such as in/out-migration of students, resident births, HUD-reported building permits, etc.). Percentages are calculated from the historical enrollment data to determine a reliable percentage of increase or decrease in enrollment between any two grades. For example, if 100 students enrolled in Grade 1 in 2023-24 increased to 104 students in Grade 2 in 2024-25, the percentage of survival would be 104%, or a ratio of 1.04. Ratios are calculated between each pair of grades or years in school over several recent years.

After study and analysis of the historical ratios, and based upon a reasonable set of assumptions regarding births, migration rates, retention rates, etc., ratios most indicative of future growth patterns are determined for each pair of grades. The ratios thus selected are applied to the present enrollment statistics to project into future years. The ratios are the key factors in the reliability of the projections, assuming validity of the data at the starting point.

RELIABILITY OF ENROLLMENT PROJECTIONS

Projections can serve as useful guides to school administrators for educational planning. Enrollment projections are more reliable in Years #1-3 in the future and less reliable in the "out-years." Projections four to ten years out may serve as a guide to future enrollments and are useful for planning purposes, but they should be viewed as subject to change given the likelihood of potential shifts in underlying assumptions/trends, such as student migration, births as they relate to Kindergarten enrollment, and other factors.

Projections that are based upon **the children who already are in the district** (the current K-12 population only) will be the most reliable. The second level of reliability will be for those children already **born into the community but not yet old enough to be in school.** The least reliable category is the group for which an estimate must be made **to predict the number of births**, thereby adding additional uncertainty. See these three multi-colored groupings on the "Projected Enrollment" tab.

Annual updates allow for early identification of recent changes in historical trends. When the actual enrollment in a grade is significantly different (higher or lower) from the projected number, it is important (yet difficult) to determine whether this is a one-year aberration or whether a new trend may have begun. In light of this possibility, NESDEC urges all school districts to have updated enrollment forecasts developed by NESDEC each October. This service is available at no cost to affiliated school districts.
